

Justin Villines

Justin Villines is an Arkansas native who currently serves as the Health Information Technology Policy Director for the Office of Health Information Technology, overseeing the State Health Alliance for Records Exchange (SHARE), Arkansas' only statewide Health Information Exchange (HIE). With over 18 years of experience across HIE, EMR/EHR systems, public health, community education, practice transformation, healthcare consulting, project management, teaching, and federal and state service, he brings a wealth of expertise to his work. Justin is also an Adjunct Professor—teaching in both the Master of Health Administration and Masters in Management and Leadership programs at Webster University (St. Louis) and Park University (at Little Rock Air Force Base). He holds a B.S. in Management and an MBA with an emphasis in Healthcare Management, and he is currently pursuing a DrPH in Public Health – Community Health Promotion and Education. Previously, Justin served in the U.S. Army for eight years, including two combat tours in Iraq.

In his church community, Justin has served as a deacon and currently serves as an elder. He is active in the youth ministry, the outreach ministry, and the church's social justice committee. He also serves as a Stephen Minister, providing one-on-one care and support to those in need.

Outside of work and church, Justin enjoys spending time outdoors, traveling, and being with family and friends. He especially loves hiking, canoeing, and gardening.
